1. At the end of August there were wide-scale purges and changes in all the Communist organizations in Athens-Piraeus and the suburbs. This was done under the supervision of officials who belong to various guerrilla bands and who recently arrived in Athens-Piraeus for this purpose.
2. These measures are intended to make the members of KKE more energetic in undertaking the struggle in all the fields of Communist activity within the urban centers. In these centers a complete lack of activity has been observed.
3. To stimulate the Communist Party and extra-Party organizations to action it was decided that most of the officials of KKE should enroll in the low-level Communist organizations as simple members and begin activity there.
4. Overt activity will be started to rouse the members to strikes and various demonstrations against order and security, with the aim of creating within the urban centers certain conditions to facilitate the application of terrorist plans, even if the activity results in "bloodshed and sacrifices".
5. The activities of KKE agents will be centered on the trade union sector in order to achieve a general strike throughout Greece, followed by a hoped-for fall of the Government, which in turn would mean the partial success of the political aims of KKE.
